

# BHAWANIPUR GLOBAL CAMPUS

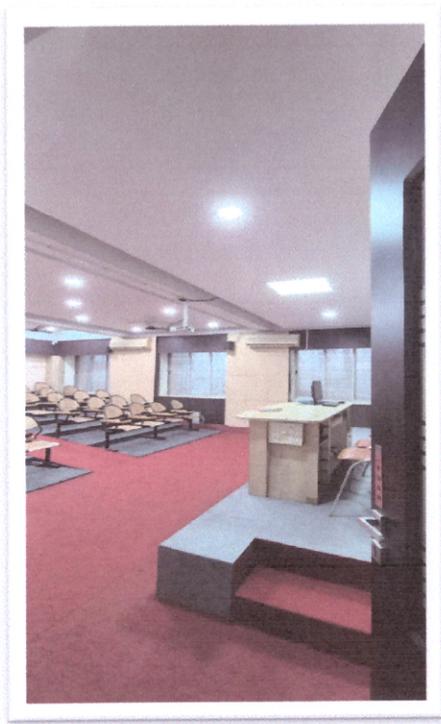

(An Autonomous Institution)

## USE OF PROJECTORS IN CLASSROOMS

Majority of the classrooms are smart classroom with projectors at Bhawanipur Global Campus (An Autonomous Institution) to enhance the teaching-learning process and make classroom instruction more interactive and engaging. Projectors enable faculty to use multimedia presentations, animations, videos, and digital resources, helping students understand concepts more effectively. They also support smart teaching methods and encourage the integration of technology into daily lessons.

By providing a visually rich learning environment, projectors improve student participation, clarity of instruction, and overall academic performance. This initiative reflects the college's commitment to modernizing its infrastructure and promoting a technology-enabled educational experience.

The classrooms have cordless mikes and lapels as well as interactive TVs that can be used as smart boards. The ambience of the classrooms is set in a tone where academia and research is encouraged.

Dr. Soumendranath Bandyopadhyay  
Principal
