

BHAWANIPUR GLOBAL CAMPUS

(An Autonomous Institution)

IMPLEMENTATION OF SKILL INDIA MISSION

Bhawanipur Global Campus (An Autonomous Institution) is committed to empowering students with holistic skill development in alignment with the objectives of the Skill India Mission launched by the Government of India. The institution has adopted a structured, multidisciplinary approach to integrate employable skills, vocational training, and entrepreneurship development into its academic ecosystem.

To fulfil the mandates of Skill India, the campus offers industry-relevant add-on trainings, job-oriented training programs and employability enhancement modules across various domains including Information Technology, Business Administration, Digital Marketing, Computer Applications, Communication Skills, Retail Operations, Finance, and Data Analytics. These programs are periodically updated to reflect evolving market demands and technological advancements.

The institution also collaborates with industry bodies and various academic experts for curriculum support, hands-on training, certification, and placement assistance. Through workshops, internships, industrial visits, and expert lectures, students gain exposure to real-time professional environments, improving their competency and confidence.

The implementation of the Skill India Mission at the campus has greatly enhanced student employability, promoted entrepreneurial mindsets, and strengthened the institution's role in national capacity building. By bridging the gap between academic standards and industry expectations, Bhawanipur Global Campus continues to contribute actively to the national goal of creating a skilled and productive workforce.
